

Degree Show 2006 - Proposals For Reception Area

Proposals put forward by

Ben Foord

David Morgan

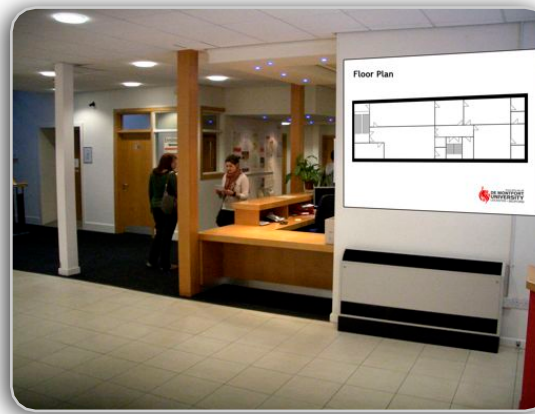

Justin Taylor

Projections on Entrance Wall

Proposals For Reception Area

Shot 1: Using the existing projector there will be images shown on the opposite wall.

Shot 2: The floor plan and guide, will be shown here. Maps and Orientation for the users who have just entered the space.

Shot 3: The branding and images relating to the theme are also shown here. Allowing the visitors immediate recognition with the space and the branding.

Projections on Gallery Wall

Proposals For Reception Area

Shot 1: Initially a queue of Students - (who are carrying artifacts related to their course) - will be waiting to walk across the space to the other side and then out of shot.

Shot 2: Occasionally a Student will walk around onto the corner 'window screen' and then proceed in talking about his/her course.

Shot 3: The Case study then covers the Gallery wall as well as the 'window screen' and notifies the user of where their work can be found.

Shot 4: This would be repeated for as many of the courses as possible.

Shot 5: A Contour Fashion Student is selected.

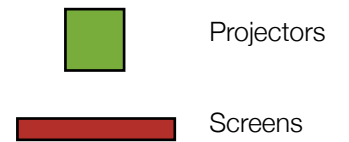

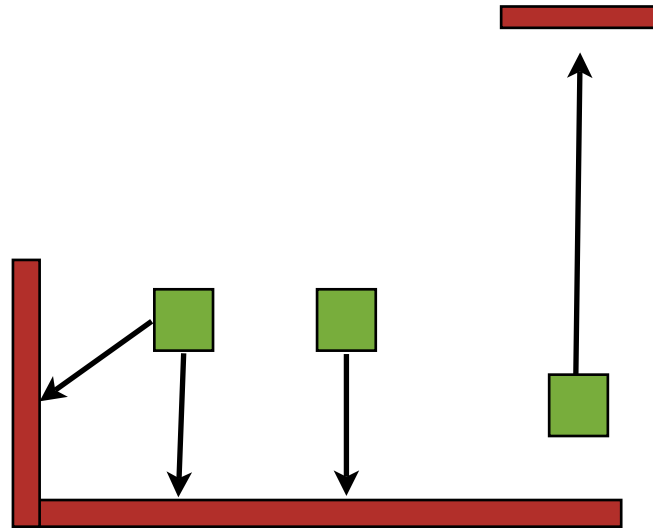

Shot 6: The Student is now describing her work, with the aid of pictures and other visual means such as video.
